

# MODERN DESKTOP ASSESSMENT SERVICE

**EVALUATE YOUR IT READINESS**  
**IMPROVE PRODUCTIVITY AND SECURITY**  
**REDUCE COSTS**

Accelerate business growth and reimagine a workplace that's people-centric, resilient, with agile support. Streamline business systems to improve user experiences, and equip your people with the best communication, collaboration, productivity, and security solutions.

Our solution architect will identify flexible, secure ways to transform your business with innovative Microsoft solutions. Windows Devices are designed to run business ready applications including Microsoft 365, all managed by Enterprise Mobility + Security.

## MODERN DESKTOP ASSESSMENT OUTCOMES

**Increase productivity**  
Powerful tools unlock user potential.

**Enhance security**  
Intelligent, cloud-powered security proactively protects.

**Transform IT**  
Agile updates simplify management.

### ASSESS ENVIRONMENT

- Understand intricacies of the environment to assess benefits.
- Examine existing product lifecycle and IT infrastructure.
- Uncover support or compatibility issues.

Assess readiness to move to a modern desktop

### ESTABLISH NEEDS

- Identify employee-centric technology to enhance workstyles.
- Ensure strategic alignment with business goals.
- Explore secure and seamless device options and solutions.

Identify the most productive environment for your workforce

### DEVELOP PLAN

- Plan for the transition to reduce complexity and streamline management.
- Leverage customised intelligent solutions to maximise productivity and reduce capital expenditure.
- Set an accurate timeline to minimise disruption and risk to achieve best practice deployment

Receive your personalised modern desktop roadmap

**“The ASI team has been flexible with required settings, tenacious when faced with a problem and generous with time and information when CHL has had questions”**

- Jamie Woodland, head of technology, Community Housing Ltd
