**MICROSOFT  
TEAMS ROOMS**

# REVOLUTIONISE WORKPLACE COLLABORATION WITH MICROSOFT TEAMS ROOMS

## Is your meeting technology holding back your teams?

Unproductive meetings caused by complex setups can lead to:

- frustration from technology failures during critical moments
- lower employee motivation to collaborate in-office
- missed opportunities to drive innovation and engagement
- increased operational costs due to ineffective room management.

## What is Microsoft Teams Rooms?

Microsoft Teams Rooms transforms meeting spaces into dynamic collaboration hubs, combining advanced hardware with seamless Teams integration. Microsoft Teams Rooms partners with industry leaders like Neat, Logitech, Yealink, Jabra, and Surface Hub to bring simplicity, reliability, and security to both in-person and hybrid meetings.

### **Hassle-free deployment**

Quick, seamless  
Microsoft 365  
integration

### **Customised training**

Empowering  
teams with  
tailored training

### **Ongoing support**

Proactive, reliable  
support and  
optimisation

# Drive better meetings and return to the office with Microsoft Teams Rooms

Empower employees to return to the office with modernised meeting technology. Microsoft Teams Rooms delivers:

## Enhanced collaboration

Advanced tools make hybrid meetings as engaging and productive as in-person sessions.

## Simplified management

Integrated systems reduce complexity, saving time and resources for your IT teams.

## Proactive room insights

Monitor and optimise meeting room usage to drive better return on investment (ROI).

## Enterprise-grade security

Protect your meetings with robust, built-in Microsoft security protocols.

## Scalable solutions

Tailored to fit organisations of all sizes, from SMBs to enterprise.

## Why choose ASI Solutions for Microsoft Teams Rooms?

With ASI Solutions, you gain more than just hardware; you gain a partner committed to empowering your workforce.

Our services include consultation, deployment, training, and ongoing support for a smooth transition and maximum ROI.
